EINSTEIN NEVER USED FLASHCARDS: HOW OUR CHILDREN REALLY LEARN--AND WHY THEY NEED TO PLAY MORE AND MEMORIZE LESS

Rodale Books. Paperback. Book Condition: New. Paperback. 320 pages. Dimensions: 9.0in. x 6.0in. x 1.0in. Now Available in Paperback! In this book two highly credentialed child psychologists offer a compelling indictment of the growing trend toward accelerated learning. It's a message that stressed-out parents are craving to hear: Letting tots learn through play is not only okay--it's better than drilling academics! Drawing on overwhelming scientific evidence from their own studies and the collective research results of child development experts, and addressing the key areas of development--math, reading, verbal communication, science, self-awareness, and social skills--the authors explain the process of learning from a child's point of view. They then offer parents 40 age-appropriate games for creative play. These simple, fun--yet powerful exercises work as well or better than expensive high-tech gadgets to teach a child what his ever-active, playful mind is craving to learn.
