END-OF-LIFE CARE: KEY COMPONENTS PROVIDED BY PROGRAMS IN FOUR STATES: GAO-08-66

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 30 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Looking to the future, our nation faces large and growing structural deficits and escalating federal debt due primarily to rising health care costs and known demographic trends. Slowing the growth of entitlements is an essential part of the solution to these challenges. GAO was asked to identify useful insights from the entitlement reform processes in other countries. Specifically, GAO was asked to analyze (1) other countries major efforts to reform entitlement programs, (2) the pressure(s) that led countries to undertake the reforms, (3) how reform proposals were developed, and (4) to what extent enacted reforms built in triggers requiring future actions under certain conditions; and where such trigger mechanisms did not exist, whether some adjustments nonetheless occurred. GAO conducted a literature review focusing on developed, high-income Organisation for Economic Co-Operation and Development (OECD) countries facing similar fiscal challenges. To gain a more in-depth understanding of reform process, GAO selected three efforts for further study: Swedens pension reform in 1998, Germanys pension reform in 2004, and the Netherlands disability reform in 2005. For these cases GAO interviewed government officials, reform participants, and experts knowledgeable about the reforms. GAO is making no new recommendations in this report. This item ships from La Vergne, TN. Paperback.
