The hard part for them is putting thoughts together into a cohesive draft. Organizing and planning for writing defy simple description and aren't easily modeled for students, making them challenging topics to convey to young children. Beginning with a September unit specially designed to introduce the writing workshop to first graders and build a classroom community that supports risk taking and learning, each successive unit builds upon the previous one and fosters independence. By June your students will know how to plan for writing out loud and on paper, leading to elegant, well-structured pieces. The units also help children to differentiate the planning and organization needed to write: fiction personal narrative nonfiction Q and A books pattern books. If you're new to first grade, Stephanie Parsons will give you ideas for top-notch teaching that will be invaluable as you establish your first writing workshop. If you're a veteran, the units in...
