Computational Business Analytics (Hardback)

By Subrata Das

Taylor Francis Ltd, United States, 2013. Hardback. Book Condition: New. 234 x 160 mm. Language: English . Brand New Book. Learn How to Properly Use the Latest Analytics Approaches in Your Organization Computational Business Analytics presents tools and techniques for descriptive, predictive, and prescriptive analytics applicable across multiple domains. Through many examples and challenging case studies from a variety of fields, practitioners easily see the connections to their own problems and can then formulate their own solution strategies. The book first covers core descriptive and inferential statistics for analytics. The author then enhances numerical statistical techniques with symbolic artificial intelligence (AI) and machine learning (ML) techniques for richer predictive and prescriptive analytics. With a special emphasis on methods that handle time and textual data, the text: * Enriches principal component and factor analyses with subspace methods, such as latent semantic analyses * Combines regression analyses with probabilistic graphical modeling, such as Bayesian networks * Extends autoregression and survival analysis techniques with the Kalman filter, hidden Markov models, and dynamic Bayesian networks * Embeds decision trees within influence diagrams * Augments nearest-neighbor and k-means clustering techniques with support vector machines and neural networks These approaches are not replacements of traditional statistics-based...

Reviews

This ebook is wonderful. I could comprehend every thing out of this created e book. I am just effortlessly can get a satisfaction of reading a created pdf.

-- **Federico Nolan**

This ebook could be worthy of a read through, and far better than other. I am quite late in start reading this one, but better then never. I realized this publication from my dad and i advised this publication to learn.

-- **Stefan Von**
